EXECUTIVE SUMMARY

As part of Indiana University's ongoing and comprehensive commitment to effectively addressing the issue of sexual assault, IU distributed a climate survey on sexual assault and sexual misconduct to students on the Indiana University Kokomo (IUK) campus in Spring 2019. IU Kokomo's Community Attitudes and Experiences with Sexual Assault and Misconduct Survey asked students about their attitudes, perceptions, and direct experiences with sexual assault and other forms of sexual misconduct, as well as their opinions on university resources and practices related to preventing and responding to instances of sexual misconduct. The information gathered through this anonymous survey and shared in this report has already been, and will continue to be, used to inform the university's ongoing prevention, education, and response efforts and to move us closer to the ultimate goal of eliminating sexual violence that affects our campus community.

While 353 students — approximately 13 percent of the student population — responded to some part of the survey, the results set forth in this report were compiled from the 329 students ("participants") who completed at least 50 percent of the survey, were age 18 years or older, were not online-only students, and who self-identified their sex/gender as male or female. This report total represents approximately 12 percent of the total student population on the IU Kokomo campus. Of the participants whose answers are reported here, 94.8 percent were undergraduate students and 5.2 percent were graduate students; 79.9 percent were women and 20.1 percent were men. There were not enough graduate men participants to publicly report data for this student population.

Questions in the survey were organized into three different categories s: (1) Sexual misconduct experiences (before and since coming to IUK); (2) attitudes, beliefs and educational experiences related to sexual misconduct; and (3) engagement in sexual violence prevention efforts. Having a better understanding of prevalence rates of students' sexual misconduct experiences are critical for informing both prevention and response efforts.

The complete data and summary of key findings can be found in the following report. It should be noted that, as with any voluntary study, the data collected and set forth in this report is reflective only of the participants who responded and participated in the survey. Response bias is expected, given the sensitive nature of the topic and the specific focus on sexual violence. The data cannot therefore be understood to be a complete representation of the experiences of undergraduate and graduate students at Indiana University Kokomo. Regardless, we look to this data, and the responses shared by the participants, as important to our understanding of experiences and perceptions.

We are grateful to the students who participated in this survey. The information they shared will continue to be used to inform the work conducted on the IU Kokomo campus to prevent and respond to sexual misconduct. For more information about campus resources, policies, and procedures, visit stopsexualviolence.iu.edu.

SUMMARY OF FINDINGS

The following report includes complete findings of Indiana University Kokomo's 2019 sexual misconduct campus climate survey, including highlights of the data as well as analyses including tables and graphs noting student participant responses to specific survey questions. The percentages included in the narrative text in the report have been rounded to the nearest whole number. Refer to the tables for exact percentages. Undergraduate women are identified as "UW"; graduate women are identified as "GW"; undergraduate men are identified as "UM"; graduate men are identified as "GM." Participants were given the option to select "I prefer not to answer" in many questions of the survey due to the sensitive nature of the subject matter, and were only asked certain questions based on previous answers, resulting in fluctuating number of responses per question. A complete description of the survey methodology and participant demographics is included in appendices A–B. Tables include the frequencies of responses with

sample sizes (n) included to identify the number of participants who answered questions. In instances where the sample size (n) is less than 10, cells have been masked. If participants saw the displayed question but never answered it or never returned to complete the survey, they were excluded from the sample size (n) reported for each question. The tables labeled with a “q” indicate that the table contains data on participants’ responses to open-ended survey questions. Due to time constraints and reporting purposes, only two open-ended questions were coded and included in this report. Participant answers to additional open-ended questions will be utilized to inform prevention and response efforts.

The overall findings are organized into three general sections:

- I. Sexual Misconduct Experiences
- II. Student Attitudes, Beliefs, and Educational Experiences
- III. Engagement in Sexual Violence Prevention

I. Sexual Misconduct Experiences

Participants were asked whether they had personally experienced the following types of sexual misconduct before coming to IUK and since becoming a student at IUK.

Nonconsensual sexual touching: touching that is sexual, such as someone fondled, kissed or rubbed up against the intimate areas of my body—i.e., genitals, breasts, buttocks—without my consent.

Nonconsensual attempted sexual penetration: someone attempted/tried to sexually penetrate me vaginally, orally, or anally with their penis, fingers, or other object without my consent.

Nonconsensual sexual penetration: someone sexually penetrated me vaginally, orally, or anally with their penis, fingers, or other object without my consent.

Stalking: repeated or continued harassment online and/or in person that made me feel frightened, intimidated, or threatened.

Domestic violence or dating violence: acts of abuse or violence, or threats of violence, in a marital, partnered, intimate, romantic, or familial relationship.

Sexual exploitation: an act or acts committed through non-consensual exploitation of my sexuality for any purpose including sexual gratification, financial gain, personal benefit, or other non-legitimate purposes. Examples include non-consensual sharing of sexual photographs or video, observing another person’s sexual activity without consent, etc.

Sexual harassment: unwelcome sexual conduct or behavior that limited or denied my ability to participate in or benefit from my University education or employment.

Key Findings

- 23 percent of undergraduate men, 44 percent of undergraduate women, and 64 percent of graduate women participants reported experiencing nonconsensual sexual touching *before* coming to IU Kokomo. 8 percent of undergraduate men, 12 percent of undergraduate women, and 18 percent of graduate women reported experiencing nonconsensual sexual touching *since* coming to IU Kokomo.
- 12 percent of undergraduate men, 10 percent of undergraduate women, and 9 percent of graduate women participants reported experiencing sexual harassment *since* coming to IU Kokomo.

- 5 percent of undergraduate women and 14 percent of graduate women participants reported experiencing nonconsensual penetration (attempted or completed) since coming to IU Kokomo. Among undergraduate men participants, 0 percent reported experiencing nonconsensual penetration (attempted or completed) since coming to IU Kokomo.

Sexual Misconduct Experiences Before and Since Coming to IUK

The “n” reported in the tables below indicates the number of participants who responded to the question. For privacy considerations, some cells have been masked (grayed cells) due to the low number of participants who answered the question (less than 10).

Table 1.1a: Did you experience any of the following: “Yes” (Undergraduate)	UM				UW			
	Before IU		Since IU		Before IU		Since IU	
	%	n	%	n	%	n	%	n
Non-consensual sexual touching	23.1	52	7.7	52	43.8	210	12.4	210

Sexual harassment		2		2	45.5	11	9.1	11

Table 1.2: Since coming to IUK, rate of experiencing the following:	%UM (n=63)	%UW (n=249)	%GM (n=3)	%GW (n=14)
Non-consensual attempted sexual penetration or non-consensual sexual penetration	0.0	4.8		14.3

Participants who reported experiencing non-consensual sexual touching, non-consensual attempted sexual penetration, or non-consensual sexual penetration since coming to IUK, received three additional questions about the most recent incident of each type of misconduct they reported experiencing regarding the other person’s association with IUK, the location of the incident, and force, capacity, and consent. For those participants who indicated experiencing domestic or dating violence, stalking, sexual exploitation, or sexual harassment since coming to IUK, they received two additional questions about the incident of each type of misconduct they reported experiencing regarding the other person’s association with IUK and the location of the incident. Individuals who reported experiencing the conduct more than one time were asked to answer questions pertaining to the most recent sexual misconduct experience.

Table 1.3: For those reporting non-consensual sexual touching how is the person(s) who did these things to you associated with IUK?	%UM (n=4)	%UW (n=25)	%GM (n=0)	%GW (n=2)
Not associated with IUK		60.0

Additional Disclosures about Experiences Since Coming to IUK

The following questions were only answered by those who had previously indicated experiencing some form of sexual misconduct (non-consensual sexual touching, non-consensual attempted sexual penetration, non-consensual sexual penetration, domestic or dating violence, stalking, sexual exploitation, and sexual harassment) since coming to IUK and were willing to share more information about their experience. Participants who had reported experiencing at least one form of sexual misconduct were asked to provide more information about an experience. To maximize responses and information regarding experiences, and to collect information regarding the most common experiences reported to help inform efforts, additional questions about their experience were prioritized in the following order: non-consensual sexual penetration, non-consensual attempted sexual penetration, non-consensual sexual touching, domestic or dating violence, stalking, sexual exploitation, and sexual harassment. The “n” reported in the tables indicates the number of participants who responded to the question. For privacy considerations, some cells have been masked (grayed cells) due to the low number of participants who answered the question (less than 10).

In the following section, unless noted otherwise, participant answers are combined and represent experiences with any type of sexual misconduct since coming to IUK, including non-consensual sexual touching, non-consensual attempted sexual penetration, non-consensual sexual penetration, domestic or dating violence, stalking, sexual exploitation, and sexual harassment.

Table 2.1: Would you be willing to provide additional details about your specific experience?: “YES”	%UM (n=8)	%UW (n=45)	%GM (n=0)	%GW (n=2)
Percentage among participants who responded “yes” to having experienced some form of sexual misconduct since coming to IUK (non-consensual sexual penetration, non-consensual attempted sexual penetration, non-consensual sexual touching, domestic or dating violence, stalking, sexual exploitation, sexual harassment) who were willing to provide more details about their experience		28.9		

Table 2.2: Year in school that sexual misconduct occurred: (Participants were asked to mark all that apply)	%UM (n=2)	%UW (n=13)	%GM (n=0)	%GW (n=1)
First-year undergraduate		53.8		
Second-year undergraduate		23.1

Table 2.6: If you did not tell anyone at IUK, why? (Participants were asked to mark all that apply)	%UM (n=2)	%UW (n=11)	%GM (n=0)	%GW (n=1)
I felt ashamed/embarrassed		45.5		
It is a private matter—I wanted to deal with it on my own		18.2		
I didn't want the person who did it to get in trouble		0.0		
I feared retribution from the perpetrator/assailant		9.1		
I feared not being believed		9.1		
I thought I would be blamed for what happened		36.4		
I didn't think what happened was serious enough to disclose to others		63.6		
I didn't know how to report on campus		0.0		
I feared that I or another would be punished for infractions or violations (such as underage drinking)		0.0		
I feared others would harass me or react negatively toward me		9.1		
I thought nothing would be done in response		9.1		
I wanted to forget it happened		54.5		
I had other things I needed to focus on and was concerned about (classes, work)		36.4		
I was financially dependent on the perpetrator/assailant		0.0		
I was afraid of losing my relationship with the perpetrator/assailant		0.0		
I was fearful of further violence from the perpetrator/assailant if I told anyone		9.1		
I have children with the perpetrator/assailant		9.1		
Other		36.4		
No experience/I did tell someone		0.0		
I prefer not to answer		0.0		

II. Student Attitudes, Beliefs, and Educational Experiences

Participants were also asked about their feelings of connectedness and support at IUK and their attitudes and beliefs about the University's policies and procedures regarding sexual misconduct. Questions from the Alcohol and Sexual Consent scale were included to measure beliefs pertaining to alcohol use and consent among college students (Ward, Matthews, Weiner, Hogan, & Popson, 2012).

Key Findings

- 95 percent of undergraduate men, 91 percent of undergraduate women, and 100 percent of graduate women participants said that they feel valued at IUK.
- 100 percent of undergraduate men, 95 percent of undergraduate women, and 100 percent of graduate women participants said they think staff and administrators are concerned about their welfare.
- 97 percent of undergraduate men, 92 percent of undergraduate women, and 100 percent of graduate women participants have a good support system on campus.
- 100 percent of undergraduate men, 97 percent of undergraduate women, and 100 percent of graduate women participants feel as though the university would take a report of sexual misconduct seriously.
- 97 percent of undergraduate men, 99 percent of undergraduate women, and 100 percent of graduate women participants reported feeling safe on campus.
- 89 percent of undergraduate men, 93 percent of undergraduate women, and 100 percent of graduate women participants reported feeling safe in the area surrounding campus.
- 59 percent of undergraduate men, 61 percent of undergraduate women, and 77 percent of graduate women participants know where to get help if they or someone they know experienced sexual misconduct.
- 73 percent of undergraduate men, 71 percent of undergraduate women, and 85 percent of graduate women participants reported receiving information about what "constitutes" sexual misconduct.

For the response options that used five-point Likert scales such as strongly agree to strongly disagree, very confident to not at all confident, and very likely to not at all likely, the values reflect the sum of the top two categories (such as strongly agree + somewhat agree).

Perceptions of Campus Environment

The “n” reported in the tables indicates the number of participants who responded to the question.

Table 3.1: Please indicate your level of agreement with the following statements: (% Strongly agree/Somewhat agree)	UM		UW		GM		GW	
	%	n	%	n	%	n	%	n
I feel valued at IUK	94.7	57	90.8	240		1	100.0	13
I think faculty, staff, and administrators are genuinely concerned about my welfare	100.0	57	94.6	241		2	100.0	12
I have a good support system at IUK	96.4	55	91.7	240		2	100.0	13
I feel safe on this campus	96.5	57	98.8	240		3	100.0	13
I feel safe in the area surrounding campus	89.3	56	92.9	239		3	100.0	13
The faculty, staff, and administrators at IUK treat students fairly	98.2	56	94.2	241		3	100.0	13
IUK officials should do more to protect students from harm	28.1	57	29.7	239		2	38.5	13

For those participants who stated that they believed IUK officials should do more to protect students from harm, participants were asked what they thought the campus should do. The recommendations referenced most often include improving walking/transit safety, improving the police presence and security on campus, and improving support systems for students. Participant responses fell into the following categories:

Table 3.1q: “What should IUK do to protect students from harm?” (open-ended)	%UM (n=12)	%UW (n=37)	%GM (n=0)	%GW (n=3)
Improve walking/transit safety such as parking lots, lighting	8.3	32.4		
Improve emergency lights/phones	8.3	16.2		
Cameras	0.0	2.7		
Improve police presence, security on campus	0.0	32.4		
Comments about respecting and listening to students, or issues with reporting incidents	16.7	13.5		
Improve counseling	0.0	8.1		
Improve support system for students	16.7	18.9		
Additional or improved education and awareness	0.0	16.2		
More locks on doors/problems with locked doors on campus	0.0	5.4		
Allow students/faculty/staff to carry weapons	8.3	0.0		
Improve crime alert system	8.3	8.1		
Improve approachability, awareness, and response of security	0.0	16.2		
Increase likelihood or severity of consequences for offenders	8.3	10.8		
Improve institutional transparency	8.3	13.5		
Other	16.7	8.1		
Things are in good shape already	41.7	2.7		
I don't know/nothing in particular/NA	25.0	13.5		

Table 3.2: If someone were to report a sexual assault or other sexual violence to IUK, how likely is it that: (% Very likely/Somewhat likely)	UM		UW		GM		GW	
	%	n	%	n	%	n	%	n
The university would take the report seriously	100.0	56	97.0	233		2	100.0	13
The university would take steps to protect the safety of the person making the report	100.0	56	97.4	230		2	92.3	13
The university would take steps to protect the person making the report from retaliation	96.4	56	93.1	233		2	100.0	13
The university would take steps to ensure due process and a fair investigation of the accused	96.4	56	95.7	233		3	100.0	13
The university would take corrective action against the offender found responsible	98.2	56	95.3	233		2	92.3	13
Students would support the person making the report	94.6	56	94.0	234		2	76.9	13
The alleged offender(s) or others would retaliate against the person making the report	53.6	56	68.4	234		2	69.2	13

Table 3.3: Please indicate your level of agreement with the following statement: (% Strongly agree/Somewhat agree)	%UM (n=56)	%UW (n=231)	%GM (n=2)	%GW (n=13)
I know where to get help if a friend or I was sexually assaulted or experienced other sexual misconduct	58.9	61.0		76.9

When asked their thoughts on challenges faced in eliminating sexual misconduct at IU, participants most commonly referenced reporting issues and bias, and victim blaming, shame and fear.

Table 3.4q: “In your own words, what do you think are the biggest challenges we face in eliminating sexual misconduct at IUK?” (open-ended)	%UM (n=43)	%UW (n=162)	%GM (n=1)	%GW (n=10)
These kinds of things are inevitable, uncertain, or uncontrollable	18.6	16.7		10.0
Changing cultural norms or stigma	7.0	10.5		20.0
University self-interest, bias, lack of transparency.	0.0	6.2		10.0

Perceptions of Alcohol and Consent

The “n” reported in the tables indicates the number of participants who responded to the question.

Table 6: Please indicate your level of agreement with the following statements: (% Strongly agree/Somewhat agree)	UM		UW		GM		GW	
	%	n	%	n	%	n	%	n
The more alcohol a person has consumed, the less able they are to consent to sexual activity.	86.5	51	94.6	205		2	100.0	11
Alcohol or drug use makes a person more vulnerable to sexual assault.	98.0	51	92.2	205		2	90.9	11

III. Engagement in Sexual Misconduct Prevention

Participants were also asked questions about their involvement in sexual misconduct prevention, as well as questions adapted from a bystander efficacy scale to measure the participant’s confidence to intervene in certain situations and scenarios related to sexual harassment and potential sexual violence (Banyard, Moynihan, & Plante, 2007).

Key Findings

- 64 percent of undergraduate men, 73 percent of undergraduate women, and 91 percent of graduate women participants think they can do something about sexual misconduct.
- 10 percent of undergraduate men, 16 percent of undergraduate women, and 27 percent of graduate women participants think that sexual misconduct is a problem at IUK.
- 87 percent of undergraduate men, 91 percent of undergraduate women, 91 percent of graduate women participants think that sexual misconduct is a problem everywhere.
- 12 percent of undergraduate men, 15 percent of undergraduate women, and 0 percent of graduate women participants said that they had another student tell them they were the victim of assault.
- 0 percent of undergraduate men, 2 percent of undergraduate women, and 0 percent of graduate women participants indicated they observed a situation that they think was or could have led to a sexual assault.

Perceptions of Sexual Violence

The “n” reported in the tables indicates the number of participants who responded to the question.

Table 7.1: Please indicate your level of agreement with the following statements: (% Strongly agree/Somewhat agree)	UM		UW		GM		GW	
	%	n	%	n	%	n	%	n
I think sexual misconduct is a problem on this campus.	9.6	52	15.5	206		2	27.3	11
I think I can do something about sexual misconduct.	63.5	52	73.3	206		2	90.9	11
I am planning to learn more about the problem of sexual violence on campus.	42.3	52	58.7	206		2	54.5	11
I think sexual misconduct is a problem everywhere.	86.5	52	91.2	205		2	90.9	11

Table 7.2: Have you recently taken part in activities or volunteered your time on projects focused on ending sexual violence on campus or in your community?	%UM (n=52)	%UW (n=206)	%GM (n=2)	%GW (n=11)
Yes	7.7	11.2		18.2
No	88.5	85.4		81.8
I prefer not to answer	3.8	3.4		0.0

Bystander Experiences and Engagement

The “n” reported in the tables indicates the number of participants who responded to the question.

Table 8: Bystander experiences	UM		UW		GM		GW	
	%	n	%	n	%	n	%	n
Since becoming a student at IUK, I have had another student tell me that they were the victim of a sexual assault: “Yes”	11.5	52	14.8	209		2	0.0	11
Since becoming a student at IUK, I have observed a situation that I believe was, or could have led to, a sexual assault: “Yes”	0.0	52	2.4	209		2	0.0	11
Since becoming a student at IUK, I have observed a situation that I believe was, or could have led to, a sexual assault: “No”	98.1	52	94.7	209		2	90.9	11
Since becoming a student at IUK, I have observed a situation that I believe was, or could have led to, a sexual assault: “Unsure”	1.9	52	2.9	209		2	9.1	11
Since becoming a student at IUK, I have observed a situation that I believe was, or could have led to, a sexual assault: “I prefer not to answer”	0.0	52	0.0	209		2	0.0	11

Bystander Intervention Confidence

The “n” reported in the tables indicates the number of participants who responded to the question.

Table 9: Please indicate your confidence to... (% Very confident/Quite confident)	UM		UW		GM		GW	
	%	n	%	n	%	n	%	n
Express my discomfort if someone makes a joke of a sexual nature about another person or their body	76.9	52	70.0	203		2	81.8	11
Express my discomfort if someone says that rape victims are to blame for being raped	84.6	52	89.7	203		2	100.0	11
Call for help (i.e., call 911) if I hear someone yelling “help”	90.4	52	87.9	206		2	100.0	10
Talk to a friend who I suspect is in a sexually abusive situation	86.5	52	85.2	203		2	100.0	11
Get help and resources for a friend who tells me they have been sexually assaulted	84.6	52	86.8	204		2	100.0	11
Help someone under the influence of alcohol or drugs to get away from a potentially vulnerable situation and to a safe place (e.g., help them to get safely home from a social situation, party, or bar)	88.5	52	89.2	203		2	90.9	11
Tell someone at IUK about information I have that might help in a sexual assault case even if pressured by my peers to stay silent	84.6	52	76.6	205		2	100.0	11
Confront someone who is making excuses for having sex with someone without their consent	78.8	52	77.9	204		2	100.0	11

IV. Implications of Survey Findings

The findings from the IU Kokomo Community Attitudes and Experiences with Sexual Assault and Misconduct Survey will continue to be used to inform the development and enhancement of sexual violence prevention and response efforts, including education, interventions, policies, and practices. Additional analysis of the data collected can also provide more information in identifying risk factors for students, as well as areas for increased efforts for student education and programs.

From the 2019 survey, IU Kokomo takes pride in the fact that 98 percent of students who took part in the survey said they feel safe on campus. This can be attributed to many factors, but most notably the addition of a full-time police officer and the sexual misconduct statement on all syllabi, plus an increase in the number of students who said they received information about sexual misconduct and IU's policy. This most likely factors into the 98 percent of those surveyed who feel the university would take a report of sexual misconduct seriously and the 96 percent who state the university would ensure due process and fair investigation.

Many students step foot on campus having already experienced some type of sexual misconduct. (44 percent of undergraduate women and 23 percent of undergraduate men experience nonconsensual sexual touching before attending IU Kokomo.) The campus has increased the number of therapists available, nearly doubling counseling hours to help address this and other student needs. A CAPS counselor tries to visit every A101 student success seminar section at least once throughout the semester.

Continuing education opportunities are consistent throughout the academic year, including more programming related to sexual misconduct and healthy relationships. Direct messaging via email, multiple times each semester, to the students from the Dean of Students reminds them of where to report sexual misconduct and how to get help on campus. The newly-established Resource Navigator role is another student outreach service that can assist in these efforts. Additionally, an intake survey completed at New Student Orientation assists the campus in directing students to needed services immediately, if students are willing to self-identify.

Areas for growth opportunity include increasing the number of participants who feel they can do something about sexual misconduct. The 2019 survey shows a positive response rate of 72 percent, however, it is the goal of IU Kokomo to increase that by 5 percent for the next survey cycle. IU Kokomo plans to explore additional training opportunities to empower students to become peer educators on the topic of sexual misconduct prevention.

IU Kokomo continues to assess and improve the campus environment and efforts to educate students about the policy and services provided.

APPENDIX A: SURVEY METHODOLOGY

During the spring 2019 semester, a survey on *Community Attitudes and Experiences with Sexual Assault and Misconduct* was emailed to Indiana University students. Email recruitment of matriculated undergraduate and graduate students was conducted separately for each IU campus. For the IU Bloomington and IUPUI campuses initial email recruitment targeted a random sample of approximately half of the student body not including the School of Medicine, while all other IU regional campuses conducted a census survey of the entire enrolled student body of each individual campus. The Executive Summary of each campus report details numbers of those who received initial recruitment contact messages and those who completed a majority of the survey providing the data reported for each campus.

Recruitment occurred through February and March 2019, with initial recruitment messages sent by the respective campus Provost or Chancellor, and two subsequent emails from senior Student Affairs leadership (e.g., respective campus Dean of Students) encouraging participation. Each recruitment email included information about the importance of the survey and a link. The results presented in the public reports were compiled from participants who completed at least 50 percent of the survey, were age 18 years or older, were not online-only students, and self-identified their sex/gender as male or female. The public reports for IU Bloomington and IUPUI also include data from self-identified transgender participants. Participants were given the option to select “I prefer not to answer” in many questions of the survey due to the sensitive nature of the subject matter, and were only asked certain questions based on previous answers, resulting in the fluctuating number of responses per question.

Data were collected from students identifying as transgender, non-binary, agender, and other gender identities. While collected, we do not report on all aggregate gender identity findings because the number of individuals in these groups was relatively small and doing so might compromise anonymity. For the purposes of the IU Bloomington and IUPUI public reports sample size was sufficient to report a transgender category that included transgender women and transgender men, allowing for some assessment in light of each subgroup being quite small. The data from these groups will be used to help guide the creation of gender-inclusive educational and prevention efforts.

Contact lists of students was generated by University Institutional Research and Reporting. All data was collected over the internet via the Indiana University Center for Survey Research (csr.indiana.edu), a research center of the Office of the Vice Provost for Research (OVPR) at IU Bloomington. The link directed participants to a consent page that contained detailed information about the study, as well as information regarding additional campus resources related to sexual violence. Each survey page also included a banner with a direct link to www.stopsexualviolence.iu.edu, the university’s comprehensive site for resources, programming, and policies regarding sexual misconduct and sexual violence. Participants were told the study was on attitudes and experiences with sexual assault and other forms of sexual misconduct, that their responses would remain anonymous to university officials, and that they could end the survey at any time. The total survey contained 95 questions, but participants may have received slightly more or less questions due to the skip logic of the questionnaire. The survey included a page at the end thanking the student for their responses and offering a comprehensive list of resources (e.g., counseling services, medical resources, police department, etc.). If students chose to participate, they were automatically entered for a chance to win a \$50 Amazon gift card, which were awarded shortly after the survey was taken offline. Financial support for the incentives and data analysis was provided by IU. All institutional research procedures were consistent with Human Research Protection Program Policies.

The survey tool and research procedures, based on the tool and procedures used for IU Bloomington in fall 2014, were developed through a collaborative process between faculty, staff, and students. Study procedures were developed with faculty from the Kinsey Institute along with the Center for Survey Research, Office of Institutional Equity, Office for Sexual Violence Prevention and Victim Advocacy at IU Bloomington, Office of Equal Opportunity at IUPUI, and input from key administrators across Indiana University. Campus-specific questions were created with collaboration of campus leaders. The survey tool was based on similar items previously used, current academic literature, and on materials used by other

higher education institutions that have conducted their own campus climate reports on sexual misconduct. Data management and analyses were conducted by the IU Center for Survey Research.

Statistical weights were applied to analyses to facilitate accuracy of entire campus assessment and implementation. Weights were developed based on three demographic variables available from matched institutional records: sex/gender, class level, and race/ethnicity. Prior to calculating weights, University Institutional Research and Reporting (UIRR) examined respondent counts and collaborated with faculty and staff investigators to determine a weighting design. Base weights were calculated as the inverse probability of being selected into the sample for each campus. The weights were then calibrated to population proportions using a method of post-stratification called iterative proportional fitting (a.k.a. raking). Finally, weights were examined for extreme values and, if needed, trimmed prior to appending the weights to the response dataset.

Resources

Given the sensitive nature of the survey, information about campus resources was continuously provided throughout the survey referencing Indiana University's website for information regarding sexual misconduct. Participants were informed about the nature of the survey before consenting to participate, and campus resources were provided to all participants who completed the survey. To report sexual misconduct or learn more about campus resources, policies, and procedures, visit stopsexualviolence.iu.edu.

I don't know	0.0	0.5		0.0

APPENDIX C: ADDITIONAL QUESTIONS ASKED

The following questions were also included as part of the survey, but the frequency of responses (n) for each of these questions across all categories (UM, UW, GM, GW) was less than 10. Therefore, no data can be provided in this report for the following questions due to privacy considerations. The questions are represented in bold text; answer options provided to participants follow in parentheses.

Sexual Misconduct Experiences

For the most recent experience of non-consensual sexual penetration, how is the person(s) who did these things to you associated with IUK? (Not associated with IUK; Student; University professor or instructor; Staff or administrator; Other person affiliated with an IUK program (ex., Externship/Internship, clinical placement, study abroad); Don't know the person's association with IUK)

For those reporting non-consensual sexual penetration, where did the most recent incident occur? (On-campus building; On-campus outside; Off-campus outside; Bar, club, restaurant; Off-campus residence (your own or other residence); Other)

For those reporting non-consensual sexual penetration, did you experience any of the following in connection with this incident? (Participants were asked to mark all that apply.) (I was forced or was threatened with physical force; I was unable to consent (e.g., incapacitation due to drugs and/or alcohol asleep, unconscious); I felt coerced; I did not give affirmative consent verbally or otherwise; Other)

For the most recent experience of sexual exploitation, how is the person(s) who did these things to you associated with IUK? (Not associated with IUK; Student; University professor or instructor; Staff or administrator; Other person affiliated with an IUK program (ex., Externship/Internship, clinical placement, study abroad); Don't know the person's association with IUK)

For those reporting sexual exploitation, where did the most recent incident occur? (On-campus building; On-campus outside; Off-campus outside; Bar, club, restaurant; Off-campus residence (your own or other residence); Other)

Did you report your sexual harassment incident or seek help at IUK? (Yes; No)

Among those who reported experiencing sexual harassment since coming to IUK: Please indicate the individual(s)/office(s) to whom you reported the incident: (Participants were asked to mark all that apply) (Deputy Title IX Coordinator; University Title IX Coordinator; Faculty; Staff/Administrators; Dean of Students; Counseling and Psychological Services (CAPS); Other; I prefer not to answer)

How helpful were the people you told at IUK in assisting you with the problem (the reported sexual harassment)? (Not at all helpful; Only a little helpful; Somewhat helpful; Very helpful; I prefer not to answer)

If you did not report the incident of sexual harassment to anyone at IUK, why? (Participants were asked to mark all that apply) (I felt ashamed/embarrassed; It is a private matter – I wanted to deal with it on my own; I didn't want the person who did it to get in trouble; I feared retribution from the harasser; I feared not being believed; I thought I would be blamed for what happened; I didn't think what happened was serious enough to disclose to others; I didn't know reporting procedure on campus; I feared others would harass me or react negatively toward me; I thought nothing would be done in response; I wanted to forget it happened; I had other things I needed to focus on (for example classes and work); Other; No experience/I did tell someone; I prefer not to answer)

For those willing to share additional information about their experience with sexual misconduct:

What kind of responses did you receive from those you told or reported to? (Participants were asked to mark all that apply.) (Helped me gather information, or find resources and/or services; Responded in a way that made me feel supported; Responded in a cold or detached way; Connected me with resources; Told others about it without my permission; Doubted me, asked questions to determine if it really happened, or refused to believe me; Blamed me, said I could have done something to prevent it, or asked why I didn't do something to prevent it; Minimized the experience or the importance of what happened; Made excuses for the person who did this to me; Other; I did not receive a response; I prefer not to answer)

At the time, was the other person (the assailant) affiliated with Indiana University? (Yes; No; Don't know)

Was the other person (the assailant) affiliated with a sorority? (Yes; No)

Did you seek medical attention after the incident? (Yes; No; I prefer not to answer)

Among those who said they reported sexual misconduct to someone at IUK: Please indicate the individual(s) or office(s) to whom you reported the incident: (Participants were asked to mark all that apply) (Deputy Title IX Coordinator; University Title IX Coordinator; Faculty; Staff/Administrators; Dean of Students; Counseling and Psychological Services (CAPS); Other; I prefer not to answer)

How helpful were the people you told at IUK in assisting you with the problem? (Not at all helpful; Only a little helpful; Somewhat helpful; Very helpful; I prefer not to answer)

For those participants providing additional details about an incident of non-consensual attempted penetration or non-consensual penetration:

At the time of the incident, did the other person (the assailant) consume alcohol and/or drugs? (Yes; No; Unsure; I prefer not to answer)

Which of the following substances did the other person (the assailant) consume? (Participants were asked to mark all that apply) (Alcohol; Marijuana; Prescription drugs; Other illicit drug; Unsure; I prefer not to answer)

At the time of the incident, had you consumed alcohol and/or drugs? (Yes; No; Unsure; I prefer not to answer)

Which of the following substances did you consume? (Participants were asked to mark all that apply) (Alcohol; Marijuana; Prescription drugs; Other illicit drug; Unsure; I prefer not to answer)

Do you think someone intentionally gave you alcohol to the point of intoxication for the purpose of sexual contact? (Yes; No; Unsure; I prefer not to answer)

Do you think someone intentionally drugged you for the purpose of sexual contact (e.g., slipped a substance in your drink)? (Yes; No; Unsure; I prefer not to answer)

For those participants providing additional details about an incident of non-consensual sexual touching, non-consensual attempted penetration, or non-consensual penetration:

Did this occur at an event associated with IUK? (Yes; No; I prefer not to answer)

Did this occur at a party/event associated with a sorority? (Yes; No; I prefer not to answer)

For those reporting sexual exploitation or sexual harassment, did some of the behavior occur online? (Yes; No)

You previously indicated you experienced sexual exploitation since coming to IUK. Please indicate whether you experienced any of the following: Behaviors or experiences involved in incidents of sexual exploitation [Sharing of sexual materials without your permission; Receiving unwanted explicit materials; Peeping; Being watched while engaging in sexual behaviors by a third party without consent; Engaging in sexual behaviors with a person who was knowingly exposing you to sexually transmitted infections; Some other form of sexual exploitation] (Yes; No)

For those answering about an incident of sexual exploitation: How has this affected your ...? [Friendships; Romantic/intimate relationships; Academic performance; Mental health; Physical health] (Negatively, Positively; Not at all; I prefer not to answer)

Engagement in Sexual Violence Prevention

When you have witnessed a situation that you believed was, or could have led to, a sexual assault, what did you do? (Participants were asked to mark all that apply) (I stepped in and separated the people involved in the situation; I asked the person who appeared to be at risk if they needed help; I confronted the person who appeared to be causing the situation; I created a distraction to cause one or more of the people to disengage from the situation; I asked others to step in as a group and diffuse the situation; I told someone in a position of authority about the situation; I considered intervening in the situation, but I could not safely take any action; I decided not to take action; Other; I prefer not to answer)
